College Opportunity Risk Assessment: **Nebraska**

L T RISK

CT DISK

For Nebraska to thrive, all residents must have access to quality higher education. This state risk assessment is the first state-by-state analytic tool to compare the many intersecting risks to postsecondary educational opportunity. These risks are shaped by a complex interplay of dynamic forces that are internal and external to higher education.

Intersecting risks related to educational performance, educational equity, higher education funding and productivity, and state economy and finances threaten Nebraska's ability to provide the number of educated workers that its economy needs.

PROJECTED NEED

The nation will need **60%** of its workforce to have college degrees, workforce certificates, industry certifications, and other high-quality college credentials by 2025. In 2016, **48.2%** of Nebraska residents had these credentials.

If the state fails to improve, Nebraska will fall short of this 60% benchmark by 115,770 credentials in 2025.

RISK CATEGORIES

Understanding Nebraska's areas of greatest risk to educational opportunity is critical to creating effective public policies for the future.

Education Performance

Risk: LOW

Education Equity

Risk: HIGH

Higher Education Funding & Productivity

Risk: MODERATE

State Economy & Finances

Risk: LOW

For more information see the national report, *College Opportunity at Risk: An Assessment of the States*, and the State Risk Assessment Technical Guide, both available at https://irhe.gse.upenn.edu/College-Opportunity-at-Risk.

Education Performance

Preparation

Student performance in national assessments in mathematics and reading, high school graduation rates, and AP courses.

46.5% of 4th graders are proficient and above in NAEP Mathematics.

RANK: 9TH

39.9% of 4th graders are proficient and above in NAEP Reading.

RANK: 13TH

37.7% of 8th graders are proficient and above in NAEP Mathematics.

RANK: 12TH

37.8% of 8th graders are proficient and above in NAEP Reading.

RANK: 11TH

93% of students graduate from high school.

RANK: 1ST

12.0 passing AP test scores per 100 juniors and seniors.

RANK: 45TH

To calculate the Education Performance risk ranking, each indicator (preparation, participation, completion, and affordability) receives a single score based on its individual components. The state risk ranking is determined by adding these four rankings together. For more details, see page 3 of the technical guide.

Participation

The extent to which young adults and working-age adults enroll in educational programs beyond high school.

42.3% of 18–24-year-olds are enrolled in educational programs beyond high school.

RANK: 7TH

5.6% of 25–64-year-olds are enrolled in educational programs beyond high school.

RANK: 14TH

Completion

Completion of college programs in a timely manner.

31.9% of community college students earn an associate's degree within three years.

RANK: 16TH

59.2% of students enrolled in four-year institutions earn their bachelor's degree within six years.

RANK: 17TH

Affordability

Percent of family income, on average, after all financial aid, to pay educational costs to attend postsecondary institutions in the state.

Student and families pay, on average, 27.0% of family income after all financial aid to attend postsecondary education.

RANK: 25TH

Educational Equity

TRSK

TRSK

High School Completion Equity

High school graduation gap between white students and students from all other racial and ethnic groups. The graduation rate of white students in Nebraska is 13.1 percentage points higher than that of students from all other racial and ethnic groups.

RANK: 40TH

Postsecondary Participation Equity

Percentage of racial and ethnic minority students enrolled in degree or workforce certificate programs compared to the racial and ethnic minority population in the state.

There is a 9.2 percentage point difference between racial and ethnic minority students enrolled in degree or workforce certificate programs and the percentage of this group in the overall state population. A smaller proportion of students from racial and ethnic minorities are enrolled in undergraduate institutions than are in the population.

RANK: 37TH

Postsecondary Completion Equity

Postsecondary completion gap between white students and students from all other racial and ethnic groups. The on-time four-year and two-year degree completion rate of white students is 14.0 percentage points higher than that of students from all other racial and ethnic groups.

RANK: 46TH

Geographic Equity

The distance from each county center to the closest in-state degree-granting education institution.

There is an average of 11.0 miles between each county center and the closest degree-granting institution.

RANK: 39TH

LTRS

CT D CV

Postsecondary Productivity

The total state investment in higher education per undergraduate degree and certificate produced at all public institutions.

Nebraska spends \$49,707 per degree and certificate produced at all public institutions.

RANK: 47TH

Degrees and Workforce Certificates Awarded

The educational efficiency of degree-granting institutions, in terms of the number of workforce certificates and degrees awarded for every 100 full-time equivalent students.

Nebraska awards 23.6 degrees per 100 full-time equivalent students per year at all degree-granting institutions.

RANK: 34TH

Volatility of Higher Education Appropriations

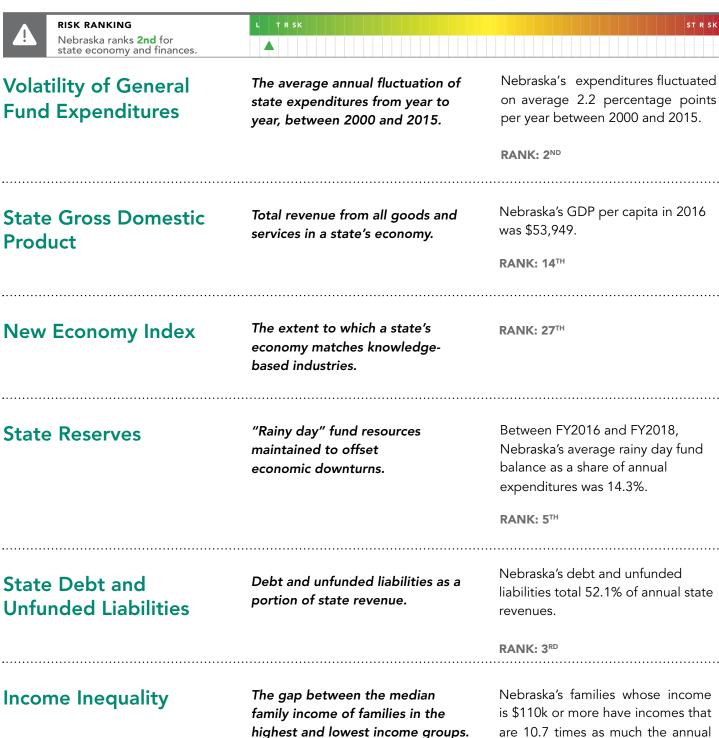

The average annual fluctuation of higher education appropriations from year to year, between 2000 and 2015.

The amount of money Nebraska appropriated specifically for higher education fluctuated, on average, 3.8 percentage points per year between 2000 and 2015.

RANK: 8TH

State Economy & Finances

RANK: 17TH

\$30k or less.

Recommended Steps for State Policymakers

- O Enhance the State Risk Assessment with additional state-level data to provide specificity and context for assessing state risks to educational opportunity.
- O Conduct a statewide "public policy audit" to understand the policies that increase risks to educational opportunity.
- Using the results of a policy audit, develop a fiscally sustainable compact for higher education that enhances college opportunity, specifying the responsibilities of students and families, colleges and universities, and taxpayers.
- O Use the State Risk Assessment to inform state higher education budgeting and accountability on an ongoing basis.
